
B&B Atoll

SOFAS

Antonio Citterio

Description

Named after the coral formation B&B Atoll, the new modular seating system by Antonio Citterio, is a refined expression of a balanced aesthetic form and a decisive contemporary style that is also extremely elegant. The system is built on three basic platforms - 190 cm and 240 cm, both with 90 cm depth, and 130 cm with 140 cm deep - that are complemented by armrest and backrest elements to form various types of seats: sofas, dormeuses, corner-end modules, single or modular elements with chaise longue and ottomans. The frames have light, slender lines and are applied on high die-cast supports with metal profile emphasising the line between the structure and upholstery. Two finishes are available, pewter and black chrome. The pieces are given even more character by a supporting element to be placed wherever desired, a bolster in two sizes - 65 cm and 90 cm - attached by leather straps to a die-cast structure. This accessory can be inserted between the seat cushion and the base structure to provide an additional support or become an armrest or backrest at will. B&B Atoll is a dynamic project with a constantly

fresh ability to adapt to different compositions and create different seating types, from informal relax versions to most formal, also made possible by the use of complementary back cushions.

Technical information

Internal frame

tubular steel and steel profiles

Internal frame upholstery

Bayfit® flexible cold shaped polyurethane foam, polyester fibre cover

Seat cushion

shaped polyurethane of different density, sterilized down, polyester fibre cover

Back cushion

shaped polyurethane, sterilized down

Lumbar cushion (AT45_40)

down feather, box style typology

Roller

shaped polyurethane, polyester fibre cover

Roller support

die-cast aluminium and leather

Support frame

die-cast aluminium

Ferrules

plastic material

Cover

fabric or leather

B&B Italia reserves the right to make technological and aesthetic improvements to its models, including changes to the sizes and materials, without notice. The technical drawings do not define the details of the product. The measurements shown are indicative and may undergo changes. In particular, the dimensions relevant to the padded parts are subject to usage tolerances over time caused by the normal adjustment of the padding. For the specific information, please contact the dealer closest to you.
