

Life

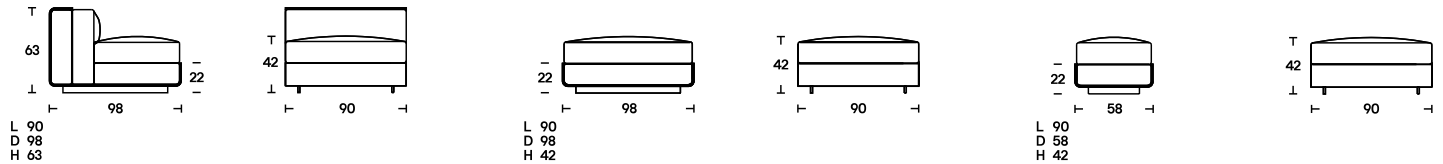

Year	1975 – 2021
Designer	Roberto Mansani

In envisioning new styles of living, Roberto Mansani imagined solutions to reshape the home, and the Life sofa retains its modern edge. Maintaining its modular and flexible design, today the sofàs original lucite frame has been elongated and updated with versions in dark stained walnut and black ash for contemporary living ideals.

The feather cushions, extremely comfortable and designed for informal relaxation, are made even more welcoming by the velvet upholstery or the other fabrics in the collection.

The seat and pouf make it possible to create infinite configurations that can be modified according to need.

Dimensions

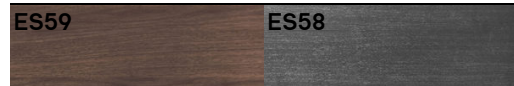

Finishes

The following elements are available: seat module, pouf S and pouf M.

Structure: curved, brushed open grain birch plywood veneered in black ash and dark walnut finish, with a system of hidden connection hooks.

Backrest and seat cushions: polyurethane foam with feather filling, with removable fabric coverings, and the purchasing option of additional upholstery coverings.
