

ABCD

Design: Luigi Caccia Dominioni, 1960

The ABCD armchair is the acme of design and it continues to surprise us today. Through subtle changes to Caccia Dominioni's original concept and drawing, this very traditional reading chair has been updated to meet the needs of contemporary living. ABCD is at once classic and timeless - memorable for its fine details. It is easy to move thanks to two small wheels yet retains its stability. The back legs differ in shape to the front ones in a playful nod to the chair's square, octagonal and circular forms that are not apparent at first glance. The upholstery studs play a technical and decorative role - invisible from the front but offering a contrasting outline when seen from the side. A nod at Pop Art that Roy Lichtenstein would have approved of.
