

Derived from the lampshade as an archetype, the 4 shades evolve from a dome shape into a flat disk.

# CUPPA

The Cuppa family has been designed as a welcome add-on for our magnetic profile range, extending the possibilities within this collection with decorative pendants. As a basis, Cuppa offers 4 attractive shades to be used as an ornament on a suspended LED module. But in total the possibilities with Cuppa are endless, as multiple shades can be added onto 1 single module, giving the user complete flexibility of designing the product he or she envisioned. Derived from the lampshade as an archetype, the 4 shades evolve from a dome shape into a flat disk, all of them purified up to the final details. Details like diverging radiuses, altering heights and aligned colour finishes all contribute to the consistency of Cuppa as a decorative family. Play with lines and contours, as all shades perfectly fit onto the LED module. Combine multiple shades into an attractive object of light or go for single shades to create a calming mood.
