Grain

Random match

Wood planks or veneer sheets are joined at random, of which expressive surface patterns require craftspeople for high skills and an eye for beauty.

Book match

Two pieces of wood planks or veneer sheets with similar surface patterns are arranged side by side to look like a book opened, which makes surface patterns look more dynamic by grains running symmetrically.

The Splinter collection is created by a Japanese designer company, nendo. Every piece of the dining chair looks to be splintered and connected to make one chair, which is the origin of the name, Splinter. This collection won the Good Design Award in Japan in 2014.

The concept of splintering is what makes this collection unique. The pillar of the coat stand is splintered out to the three branches at the top to create hooks for clothes hanging. The artificially-created natural looking requires high level wood crafting techniques to be produced.
